Binaural mode

## Boot Method 1:

Take out headphones

(Both left and right headphones) White LED lights flash 2 times ▶ The right headset lights flash for 5 seconds, it means the connection succeeds.
Select Havit G1 from the Bluetooth list

Havit G1

Boot Method 2:

Short press to pair

Select Havit G1 from the Bluetooth list

Havit G1

Notes:

1.The maximum duration of the pairing mode is 180 seconds. LED of the right headphone keeps flashing. If you miss this period, LED of both headphones flicker 3 times and go out. If needing to reconnect, please repeat the procedural steps mentioned above.

2.The headphone and mobile phone acquiesce to the last pairing automatically (Mobile Bluetooth is in ON). The headphone TWS connects within 4S, and the connection time between headphone and mobile phone is about 8s.
3.If the headphone does not reconnect after disconnection, then the headphone will turn off automatically after 3 minutes.

4.If the search device name is "HAVIT G1 Mono", it shows that there is no successful link between the left and right headset . Please restart the headphones according to the boot method.
Power off

Method 1:

Method 2: Long press headphone for 5 seconds

1.Just press the left / right headset (only use the right headset for communication).

Note:
Because part of the mobile phone receives calls by default through the phone receiver, Please set up the telephone answering equipment according to the handset instructions.
